Comments from happy Charter Guests:

WOW what an amazing trip we had on the Serenity. Thank you for helping us in the selection process. The crew was like family we loved having them around to help us learn about the area and see so many amazing things. They really thought of everything including fun themed dinners and activities. These will be cherished memories of a very wonderful trip on a beautiful boat with some really amazing staff.

Thank you for helping to pick a boat and crew that made so many lasting memories for my family!
